

Dear customers.

Allen Badley offers the new group of transmissions at the beginning of this year. They are two maintain types –breakers until 25A and breakers 45A, in the following models 140M-D...25A, 140M-F..45A. The new breakers have been offered in variant for protection of machines, starters and transformers.

For all is complete and consistent accessories equipment/ for example: helping, signal contacts, breaking and undervoltage release, etc

For all breakers is possible to fit in door controller with elongate shaft (at group 140-MN it wasn't possible/ and take advantage of new connect through ECO moduls. These are fixing the contactor to circuit breaker, it cause that DIN lath under the contactor is not necessary. Door controller could be used for circuit breakers 140-CMN.

Transmitted table between group 140-MN and 140M

Description	Catalog number 140-MN	Catalog number 140M
0,1...0,16A	140-MN-0016	140M-C2E-A16
